

DESCRIPTION

With lithium battery-backup module and 6" low-profile LED disc light fixture, this emergency kit offers over 90 minutes of light when all other power goes out. Integrated battery offers a switching time of less than 1 second, protection of overcharge and discharge, and self-checking function can be fully charged in 24 hours and has a test button. It offers great security and is an excellent general lighting kit for most applications (i.e., kitchens, stairwells, hallways, offices, and bathrooms).
